

REVENUE RECOVERY From AT&T

Learn Everything AT&T Doesn't Want You to Know About Collecting Millions in Refunds on ILEC Services in this One-Day Seminar

Can't get a "fair deal" from AT&T? Learn how one company collected over \$1 million in additional revenue from AT&T using our methodology and software.

New! Schedule On-Site and Save 33%

- ◆ **Limited Engagements Summer 2008**
- ◆ **Book NOW to get your choice of days!**

You have seen our acclaimed public seminars advertised for \$995 per seat. Now you can bring this course *in-house*, to the privacy of your own conference room. A 33% discount off our regular rate applies – and we will come to you for as few as *three* attendees! If more than six attend, you pay only one fixed price, for *all* employees, clients or counsel.¹

"It was immeasurably informative and enlightening. I am on a mission now to enlighten the other CLEC owners about these issues." - General Counsel for CLEC

"You have my permission to tell your clients that my firm believes SBC is guilty as charged." - Law Firm Partner

"Our SBC Service Manager is a talking parrot. She never told us any of this!" - MIS Manager, CLEC

"I highly recommend this Seminar to each and every SBC served UNE CLEC." - CEO, CLEC Consulting Firm

Carriers Can Be "Identity Theft" Victims Too!

AT&T (SBC) competitors have collected millions in financial settlements for call detail records (CDRs) misidentified by AT&T. Outside auditors have also verified that AT&T alters its liquidated damage (PM) reporting and may be underpaying millions in PM damages as well. What can you do about it? Learn to *recover this "lost" revenue and verify PM reporting* in this dynamic seminar! It could be the most profitable decision you make this year.

Is My Company Owed PM Liquidated Damages?

It could be. AT&T has been cited by auditors for *excluding data* from PM calculations. Former SBC employees have come forward to confirm these unsavory practices, in sworn testimony. It can all be found at: <http://www.tellawcomlabs.com>

Is My Company Owed a Refund for CDR Loss?

It could be. AT&T often misidentifies competitors' CDR by showing AT&T as the owner of the records. When this happens *AT&T bills for these calls, not your company*. In this seminar we will show you *exactly* which AT&T systems fail, and impart the technical skills for you correct the problems now. We then explain how to seek a refund.

Why Don't Companies Seek Refunds and Audits?

CLECs and many independents have the right to audit AT&T. AT&T however assigns special "project teams" to audits, only to recount incomplete, altered or redacted data from a source that AT&T controls. (Ex: AT&T CLEC web site) AT&T has further been shown to alter and delete data and to misapply formulas such as the K-Table. Can you be SURE your company was not affected? *Now you can with the help of this unique training, in the privacy of your own conference room.*

Visit: <http://www.tellawcomlabs.com>

¹ Reasonable conditions apply. Sponsoring company responsible for conference room and reasonable instructor travel expenses. Offer is valid only through 10/1/08.

In Just ONE DAY:

- Learn the most common places to look on your AT&T bills for overbilling and damages credits.
- Learn how you can have all of your bills audited at no cost to you in a permission-based audit.
- Learn the Most Common Places to Look to Identify Missing Call Detail Records (CDR).
- Learn About System-Wide AT&T Problems That Lost CDR and Why AT&T Did Not Tell You About Them
- Learn the ACTUAL ORDERING CODES Used by AT&T to Limit or Exclude Liquidated Damages
- Learn to Acquire and Analyze “Raw” (PM) Data (not redacted web site data) and SORT by Ordering Codes
- Learn to File a Refund Claim, Request an AT&T Audit, File a Utility Commission Complaint, or Lawsuit

We Tell You Exactly How to Lodge Successful Claims - in Business, Technical and LEGAL Terms

Included in the seminar is a detailed Guide Book that lists AT&T acronyms, terminology, order formats, templates, data fields, and known AT&T CDR problems. It also explains numerous AT&T order codes that often exclude valid PMs, or cause CDR loss. This seminar is designed to place your firm in a position of authority - not one of dependence on AT&T “project teams” bent on rejecting your claims. Enjoy the satisfaction of knowing that your organization is collecting every legitimate dime. Whether your company is seeking refunds for past claims, or establishing safeguards against future revenue shortfalls, this course is for you.

Who Should Attend?

CEOs, CFOs, Billing Specialists / Service Bureaus, Internal, External, and “Big 4” Auditors, Bankruptcy Trustees, Federal (FCC) and State (PUC) Regulators, Telecom Law Firms, Telecom Consultants, MIS Specialists, CABS Specialists, CABS Processing Service Bureaus, Independent Telephone Companies, ESPs, and anyone evaluating a CLEC or independent telephone company acquisition.

What Do Previous Seminar Attendees Say About Leo A. Wrobel?

“Very knowledgeable. Ready to explain and eager to hear questions. Excellent.” * “Great. Very informative and knowledgeable, very patient.” * “Presentation skills were very effective (NOT boring) and no question was a ‘dumb’ question. Excellent.” * “Very experienced and articulate.” * “Good anecdotes and real life examples. Very knowledgeable.” * “Presentations were animated and lively with good pace. Excellent.” * “Excellent, Good training material. Instructor adapted the course to fit our needs.”
