

Collect “Old” Money from the “New at&t®”

- Billing Dispute?
- Lost Call Detail Records (CDR)?
- Unpaid (PM) Liquidated Damages?

Tel**LAW**Com Labs Inc. specializes in revenue recovery from at&t®. We have identified and collected millions of dollars for competitors like you. We are not a law firm. Quite the contrary, we provide sound, outside, technical basis for a compelling at&t® claim – one that will not make lawyers rich at your expense. In fact, we often identify lost revenue with no up front financial obligation to the client at all. Visit our web site at <http://www.tellawcomlabs.com> and call us *before* you call a lawyer. We serve at&t® competitors and other firms including:

*CLECs * CMRS * Independent Telcos * Wireless * Fortune 500 * ESPs * ISPs*

If you have ever suspected at&t® of over billing you, (including unfounded billing demand letters), of losing your CDR, or of holding back on liquidated damages, please contact Leo A. Wrobel* directly at Leoprivate@tellawcomlabs.com. We will execute a no-obligation non-disclosure agreement (NDA) to *confidentially* discuss where and how at&t® may have misplaced your money. Don't put this off another moment! Competitors are collecting large at&t® refunds once they know where to look, and you have nothing to lose but your own money. Has the “new at&t®” been less than forthright with your company too? Find out today with:

TelLAW**Com Labs Inc.** (Pronounced **Telecom Labs**)
